GRANT MULLOY was one of 30 TKE's who cleaned up U.S. Route 1 last Saturday as part of their Public Service Weekend.

Withdrawal applauded

Humphrey commends YD

The Maryland Federation of College Young Democrats was commended by Vice President Hubert H. Humphrey for its recent withdrawal from the College Young Democrats of America.

In a letter to Alan H. Terl, Federation president of the University of Maryland, the Vice President expressed his appreciation for the action taken

by the Maryland Federation. He continued, "This responsible action by your group is most deserving of our commendation."

The Maryland College Federation had been very critical of the CYDCA, charging that it did not have the right to determine stands on major national policy for its member clubs and that the decisions that it did make were not necessarily representative of the student Democrats.

The withdrawal, the first by a full statewide organization, came after Terl informed the group that the Young Democratic Clubs of America was abolishing the national structure of the CYDCA and integrating the college clubs into state YD organizations.

Terl had charged that the CYDCA's decision to operate independent of Formal Democratic Party support was "the final step in the irresponsibility of the CYDCA."

Terl expressed the hope that the Maryland withdrawal would be interpreted "as a move of support for the Young Democratic Clubs of America and the Democratic National Committee."

He said that Maryland could take the lead in showing other state college federations that the new system was workable and beneficial to all Young Democrats. He further termed the move an expression of confidence in the Democratic Party structure.

This action by the administration, the first of its kind concerning the CYDCA problem, elated Young Democratic Club and college Democratic Club leaders.

Tau Kappa Epsilon cleans up Route 1

The brothers of Tau Kappa Epsilon swept their way down U.S. 1 last weekend clearing away the accumulated beer cans and debris.

Using equipment provided by the University physical plant, about 30 members of the fraternity swept, raked, mowed grass, cleared trash and trimmed trees and bushes along the route Saturday morning.

President Don Faust explained the clean-up project was a part of "Public Service Weekend" which is sponsored annually by

their national. The project, according to chairman Richard Spinella, is designed to "promote the image of fraternities."

Last year the group cleaned up the St. Anne's orphanage in Hyattsville, but this year decided to do something on campus.

The Route 1 clean-up is not the only public service project the fraternity has performed this year. It took first place in the Miss Campus Chest Queen contest by raising almost \$2000 for its candidate Kathy Millington and Campus Chest.

Tydings interview on closed circuit TV

The Radio and Television Workshop of the department of speech and dramatic arts will interview United States Senator Joseph D. Tydings (D-Md.) on the University Closed Circuit Television System.

The interview with Senator Tydings is the second in a series of special programs produced by the Radio and Television Workshop. The first in the series was a "Conversation with President Wilson H. Elkins."

On this program, "Conversation with Senator Joseph D. Tydings," interviewer Allan Terl will ask Senator Tydings questions ranging from the choice of 1968 presidential candidates and the current rift between the Johnson administration and Senator Robert Kennedy to income tax deductions for college expenses and the use of television at large universities.

The interview is scheduled to be taped at 11:30 a.m. today and will be shown today and tomorrow at the conclusion of regular television lectures. Today the interview will be seen at 1:50, 2:50

and 3:50 p.m. Tomorrow the interview can be seen at ten minutes before the hour from 9 a.m. to 4 p.m. The program can be seen on any television on the campus which is part of the CCTV system.

The audio portion of a "Conversation with Senator Joseph D. Tydings" will be played by WMUC. John Haifley, in his half hour show, Voice Your Opinion, will present student opinions concerning special programs, specifically this interview with Senator Tydings. In his random

sampling of students on campus, Haifley will ask "What are your feelings towards using the media of closed-circuit television to communicate to University students such special programs as a "Conversation with Senator Joseph D. Tydings"?

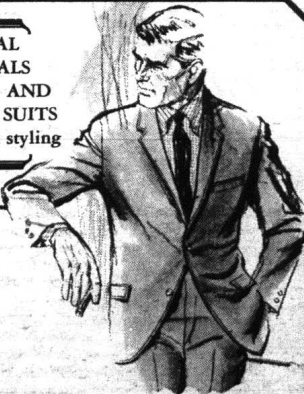

Questions the senator will be asked include:
 • Senator, what is your opinion of the proposed changes made by the President's Commission in the Selective Service System? Do you have any alternate proposals of your own?
 • Senator, we keep hearing

about all the bright young stars in the Republican Party, but in the Democratic Party we see the same names -- Johnson, Humphrey and Kennedy. Where is our new leadership going to come from?

• Senator, I believe you voted against the Ribicoff rider to allow deductions from federal income tax for college expenses. Could you tell us why?
 • Senator, what affect do you think a presidential race by Mr. Wallace might have on the 1968 election?
 • Senator, you seem to be one of the Senators more inclined to favor birth control programs. How far in this field do you feel the federal government should go?

Both the producer, John Haifley, and the Head of the Radio and Television Department, Thomas Alyward, see a bright future for the use of television as a media to communicate to students on the College Park campus.

TOPICAL
TROPICALS
DACRON® AND
WORSTED SUITS
in traditional styling

These are the summer suits men are talking about. You'll feel as well as look fresh, and cool this summer — confident that this 55% Dacron® and 45% Worsted combination, is wrinkle resistant through the hottest day. In an endless variety of imported and domestic fabrics and Cultured Colors that will satisfy men of all ages! Rich glen plaids, solids and stripes in the authentic natural shoulder tailoring and styling of College Hall. **\$69.95**
